

S3

The image displays three sequential screenshots of the AWS S3 console interface, illustrating the process of deleting a bucket and the resulting state.

Screenshot 1: Amazon S3 Console Overview
The interface shows the 'Amazon S3' console. The left sidebar lists navigation options: Buckets, Access Grants, Access Points, Object Lambda Access Points, Multi-Region Access Points, Batch Operations, IAM Access Analyzer for S3, Block Public Access settings for this account, Storage Lens (Dashboards, Storage Lens groups, AWS Organizations settings), and CloudShell. The main content area displays an 'Account snapshot' with a 'View Storage Lens dashboard' button. Below this, the 'General purpose buckets' tab is active, showing a table of buckets. A 'Create bucket' button is visible in the top right of the bucket list.

Name	AWS Region	Access	Creation date
apirses3	Asia Pacific (Mumbai) ap-south-1	Bucket and objects not public	January 18, 2024, 15:38:53 (UTC+05:30)

Screenshot 2: Delete objects: status
This screenshot shows the 'Delete objects: status' page. A green banner at the top indicates 'Successfully deleted objects'. The page includes a 'Close' button and a summary table.

Source	Successfully deleted	Failed to delete
s3://apirses3	1 object, 72.0 KB	0 objects

Screenshot 3: Amazon S3 Homepage
This screenshot shows the 'Amazon S3' homepage. The main heading is 'Store and retrieve any amount of data from anywhere'. A 'Create a bucket' button is prominently displayed. Below this, there is a 'Pricing' section with the text: 'With S3, there are no minimum fees. You only pay for what you use. Prices are based on the location'.
